Overview of the Attainable Housing Project

The Attainable Housing Project is an extension of the 'Stratford Housing Project: A Road Map for Attainable Market Housing Development (June 2021)' and seeks to implement specific recommendations adopted by Council in 2021. This project is managed by investStratford, in full consultation with the City, and is supported by funding from the Provincial Rural Economic Development (RED) program.

The Attainable Housing Project, is comprised of three key elements to support the creation of attainable housing in the City; being:

1. Development of a Community Incentive Toolkit
2. Pilot Program on City owned land to support housing
3. Media Campaign to inspire, educate, and drive action on housing
